7) Proceed to shutting down the rest of the equipment. Follow the instructions later in this guide, Powering Down the System
Laptop Troubleshooting

For PC Laptops: Depending on your model of laptop, you may need to toggle the display mode. For example, on many laptops, you must hold down the function key (FN) located in the lower left-hand corner of the keyboard, and at the same time, press the video toggle key, which is located along the top of the keyboard. Look for the text CRT/LCD or an icon of a display and a laptop.

For Mac Laptops:
1) Go to System Preferences/Display.
2) Select the Arrangement tab and check the Mirror Displays box.

Powering Down the System

1) Obtain the Epson remote, and point it at the projector on the ceiling. Press the power button to shut down the projector.
2) Power down Computer
   Windows
   Start Menu -> Shut Down -> Click OK
