2) Power on the Document Camera. Note that there is no need to have the computer turned on to use the document camera

Using an HDMI Device

An HDMI cable is provided for connecting devices such as laptops, iPads/iPhones and Android devices

1) Drag HDMI to center

2) Connect your device to the HDMI cable

Please note: Certain devices, such as iPhones and iPads, will require an HDMI adaptor. Consult your owner’s manual for further information
Laptop Troubleshooting

For PC Laptops: Depending on your model of laptop, you may need to toggle the display mode. For example, on many laptops, you must hold down the function key (FN) located in the lower left-hand corner of the keyboard, and at the same time, press the video toggle key, which is located along the top of the keyboard. Look for the text CRT/LCD or an icon of a display and a laptop.

For Mac Laptops:
1) Go to System Preferences/Display
2) Select the Arrangement tab and check the Mirror Displays box

Powering Down the System
1) Press Power button at the top right corner, then press Yes
2) Power down Computer
Windows Start Menu -> Shut Down -> Click OK
